PRACTICAL RESOURCE / AI TEACHERS

The AI partner prompt cards

Assistant

Task: [task]. Goal: [goal]. Context: [permitted context]. Format: [format]. Prepare a draft, flag missing information, and identify what needs my approval before action.

Sounding board

Decision: [decision]. Options: [options]. Evidence: [evidence]. Criteria: [criteria]. Summarize my reasoning, offer the strongest fair objection, compare alternatives, and name what evidence would change the conclusion. Do not invent facts.

Cofounder

Idea: [idea]. Person and problem: [person/problem]. Known evidence: [evidence]. Constraints: [constraints]. Separate evidence from assumptions, identify the riskiest assumption, and propose a small validation experiment. Do not invent customers or market statistics.

Creative partner

Project: [project]. Audience: [audience]. My point of view: [perspective]. Constraints: [constraints]. Offer three different directions, explain their tradeoffs, and help me create one small draft in my own voice.

Coding partner

Goal: [behavior]. Existing project: [context]. Acceptance checks: [checks]. Inspect the project, propose a small plan, preserve unrelated work, explain changes, and verify the resulting behavior. Flag security and data-handling concerns.
