PRACTICAL RESOURCE / AI TEACHERS

The human review checklist

[ ] The output serves the original task and audience.

[ ] Important claims match trusted sources.

[ ] Numbers have been checked.

[ ] Missing information is clearly marked.

[ ] The output does not expose unnecessary private information.

[ ] I have the rights and permissions needed for the inputs and intended use.

[ ] I checked edge cases and limitations.

[ ] I understand the consequences of being wrong.

[ ] Required approvals are complete before any external action.

What needs revision?

What remains uncertain?
